PERFECT CURRENT

Because your equipments such as computers require a continuous and stable power, our new generation inverters are designed with the latest INVERTER TECHNOLOGY.

DOUBLE UP THE POWER

Connect two inverter generators thanks to the parallel kit for extra power up to 7200W. Available for ACCESS 2000i and 4000i.

AUTOMATIC LOW IDLE / BEST FUEL EFFICIENCY

WORMS inverter generators can instantly set the engine speed according to the required power ensuring the best fuel savings.

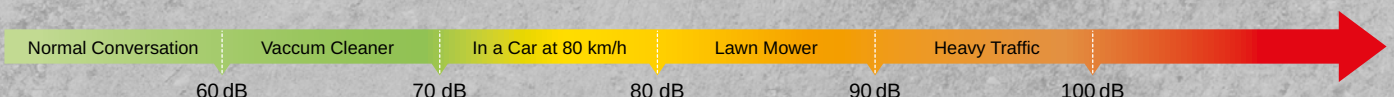

ANYWHERE WITH YOU

Our new generation inverter generators are among the most lightweight on the market. Their IP23 rating prevent any rainwater ingress and they can operate from -10 °C up to 40 °C.

SILENT POWER

The new generation of Worms inverter generators has been designed with a focus on reducing the noise down to 67 dB.

MAINTENANCE MADE EASY

For optimum performance and longevity of your Worms generator we recommend replacing the engine oil every 50 hours. Get your genuine maintenance kit from your Worms distributor including engine oil, air filter and spark plug.
