Our self-priming diaphragm pumps handle sticks, rocks, debris, mud, trash and solids. A large, shock-reducing air chamber decreases shock to the hoses. Plus, since it has no moving parts, the pumps can run dry indefinitely. Heavy-duty construction makes them ideal for pumping thick, muddy, high solid content, slurries, viscous products, seawater and re-circulated water.

### Standard equipment

- ✓ Four-stroke OHC engine
- ✓ Recoil start
- ✓ Electronic oil sensor security
- ✓ Plastic strainer, hose coupling and clamp

### Optional equipment

- + Firefighter hose coupling
- + Maintenance KIT N°2
